Our flexible core

# The IT competence module

IT competence is the basic module of each of our Flexyfit® EDP training courses.

In today's digital world **IT skills are essential**. They not only enable you to use computers and software efficiently, but also increase your productivity and competitiveness. Those with solid IT skills are better able to adapt to technological changes and find innovative solutions. In addition, IT skills open up a wide range of career opportunities and are important in almost every field of work. Invest in your **IT skills** and secure yourself a **decisive advantage** in the digital era.

### Online learning videos

Valuable supplement to presentations & scripts. Learning videos for easier learning and in-depth understanding.

### Presentations & scripts

Our presentations and scripts form the essential basis for your learning and preparation for exams. They are the indispensable basis for our online learning videos, which enable you to develop a deeper understanding and refer to important content at any time.

### Face-to-face course (online live webinars)

Flexible lessons at your home! Optional interactive webinars for live participation, discussions and active design.

Flexyfit - flexible learning, fit for the future.
